SUBJECT: Round Valley Rock Mine, M/029/004
Project No. 05-5884

Dear Mr. Kunzler:

The Resource Development Coordinating Committee (RDCC) has reviewed this proposal. The Division of Air Quality comments:

The proposed temporary construction and operation relating to the Round Rock Valley Mine in Morgan County is subject to Utah Air Quality Rule R307-205-3, Fugitive Dust, due to the fugitive dust that is generated during the excavating phases of the project. These rules apply to construction activities that disturb an area greater than 1/4 acre in size. A permit, known as an Approval Order, is not required from the Division of Air Quality, but steps need to be taken to minimize fugitive dust, such as, watering and/or chemical stabilization, providing vegetative or synthetic cover and windbreaks. A copy of the rules are found at www.rules.utah.gov/publicat/code/r307/r307.htm

The Committee appreciates the opportunity to review this proposal. Please direct any other written questions regarding this correspondence to the Resource Development Coordinating Committee at the above address or call Carolyn Wright at (801) 537-9230.

Sincerely,

John Harja
Executive Director
Resource Development Coordinating Committee
